

JANARTHAN S

AI Engineer | Machine Learning & Full Stack Developer

Chennai, India | 10cjanarthansrvspm@gmail.com | +91 8072601898 | github.com/Jana-06 | linkedin.com/in/janarthan-s-8476b81b5

OBJECTIVE

Final-year B.Tech AI & Data Science student (CGPA 9.44, no arrears) with hands-on experience building and shipping AI-integrated and full-stack systems: the AI-driven backend for a real-time clinical documentation tool delivered to a paying hospital client, the multimodal perception pipeline for an AI companion robot showcased at ICRA 2026, and a full-stack placement platform serving 15,000+ students. Skilled in LLM integration and prompt engineering (OpenAI, Gemini, Claude APIs), computer vision (TensorFlow, OpenCV), and data-driven backend design (Python/Node.js, REST APIs, SQL/NoSQL), with production experience in cloud deployment (AWS, Docker) and CI/CD.

TECHNICAL SKILLS

AI / Machine Learning: TensorFlow, OpenCV, LLM APIs (OpenAI, Gemini, Claude), prompt engineering, function/tool calling, structured outputs, streaming AI responses, RAG, embeddings, vector databases (pgvector, Pinecone, Qdrant), AI agents, speech-to-text/text-to-speech, data analytics

Languages: Python, JavaScript, TypeScript, SQL, Dart, Kotlin

Backend & APIs: Node.js, Express.js, Flask, FastAPI, REST API design, GraphQL, WebSockets, JWT/OAuth 2.0, API security

Databases: MySQL, PostgreSQL, MongoDB, Redis, Firebase, SQLite

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudFront, IAM, CloudWatch), Docker, CI/CD (GitHub Actions), Linux, Git/GitHub, Postman

Frontend & Mobile: React.js, Flutter, Android (Kotlin, Jetpack Compose), system design & scalability

EXPERIENCE

AI Backend Developer | *AI Medical Documentation System (Client Project, California)*

2026

- Built the AI-driven backend for a real-time consultation transcription and clinical data extraction tool delivered to a paying hospital client, using LLM-based extraction pipelines over a Flask/FastAPI + MySQL REST API layer, with a Flutter client app.
- Secured endpoints with JWT, tested with Postman, containerized with Docker, and shipped through a GitHub Actions CI/CD pipeline.

Tech: Flutter, Flask, FastAPI, MySQL, Docker, JWT, GitHub Actions, LLM APIs

Full-Stack Developer | *HITS Placement Platform (hitsdad.com), Self-Initiated*

2026 – Present

- Designed and built the backend and full-stack architecture of a platform adopted by the HITS Placement & Training Division, serving 15,000+ students.
- Implemented role-based workflows and access controls for achievements, grievances, discipline and registration, owning the system end to end.

Tech: Node.js, React.js, TypeScript, Git/GitHub

Android Developer Intern | *Renu Sharma Organisation*

Apr 2025 – Jul 2025

- Built native Android screens in Kotlin and XML with Firebase for data and authentication, working in a Git-based Agile workflow.

AI & App Development Intern | *Marcello Tech*

Jul 2024 – Sep 2024

- Integrated REST APIs to connect a Flutter app to backend AI services, collaborating with a team using Git/GitHub in an agile workflow.

AI PROJECTS

BLOOM — Companion Robot for Children with ASD | *ICRA 2026 NeuroDesign, Vienna*

2026

- Built the backend integration layer of a multimodal AI companion robot, connecting Firebase and Supabase to a TensorFlow/OpenCV computer-vision pipeline with WebRTC for real-time video.
- Runner-up, Most Popular Design among 100+ global university teams at the HRI EXPO & Competition.

NFM — Medicine Delivery & Pharmacy App | *Personal Project*

- Built JWT-secured REST APIs and a MySQL/MongoDB backend for medicine search, prescriptions and order tracking, with an Android client (Kotlin).

AWARDS & SCHOLARSHIPS

- Runner-up, Most Popular Design, ICRA 2026 NeuroDesign HRI EXPO, Vienna — among 100+ global university teams (May 2026)
- Best Innovation Award, National Level ML Datathon, SRM Institute of Science and Technology — Team ATHENA (Feb 2025)
- Hana Scholarship, KEB Hana Bank India, awarded for academic merit (Dec 2023)

EDUCATION

B.Tech, Artificial Intelligence & Data Science | *Hindustan Institute of Technology and Science (HITS), Chennai 2023 – 2027*

CGPA: 9.44 | No arrears

LEADERSHIP

- President, Excimer Cloud Club (AWS), HITS — lead a 40+ member engineering club; organize technical workshops on AI and full-stack development.
- Programming Lead, Blue Screen Club, HITS — run hands-on coding sessions and projects; coordinate workshops and seminars with faculty and student organizers.
